

CENTURION Ti60-Ti80

The Centurion Range delivers powerful vacuum for the toughest cleaning jobs. The heart of all machines in this range is the BVC Multistage Vacuum Pump which is designed for continuous operation in harsh industrial environments.

Available in many different configurations and options to suit all applications

- 5 year parts warranty
- HEPA and ATEX Options
- Huge range of tools and hoses

HEPA filters are tested according to the procedures described in BS 3928:1969. Our filter materials are compliant with the H13 and H14 HEPA categories described in BS EN 1822-2:2009 and also conform to the equivalent standards described in ISO 29463-1:2011

The Centurion Ti60-80 Range ATEX

An extremely powerful industrial vacuum cleaner that's versatile and easy to handle

High power, ease of use and extreme manoeuvrability are the key design parameters of our flagship Centurion range of heavy duty industrial vacuums. They are very versatile and capable of rapidly cleaning some of the most difficult industrial waste.

Used as a stand alone machine or connected to an interceptor or hopper to significantly increase collection volumes. Can also be connected to a fixed pipe system where cleaning is needed in otherwise inaccessible areas. The Centurion is a long term solution for a wide range of industries.

- Induction motors provide long motor life and 24 hour a day running if required.
- Robust and well-proven BVC built exhauster provides continuous high suction power.
- Large surface area 'Clear Flow' fabric filters and Filter Cleaning Mechanism provide outstanding filtration and maintain good cleaning performance.
- Large capacity collection bin features a drop down mechanism for easy removal and emptying.
- Large wheels and castors for easy manoeuvrability.

Accessories

- A comprehensive range of 102mm, 76mm, 51mm and 38mm hoses and cleaning tools
- Collection bin lifting kit
- Aerated 75mm diameter bulk pick up tool for clearing large piles of debris or bin emptying etc.
- Range of vacuum hoppers and interceptors
