

GREENLINE 2-90WD WET/DRY

The BVC Greenline 2-90 Wet and Dry industrial vacuum cleaner is both powerful and tough. The 90 litre plastic tank is extremely durable and the twin 2-stage motors deliver 2400W of powerful suction.

Large wheels and an ergonomic trolley handle aid manoeuvrability. The tank is fitted with a drain hose for easy emptying, and the hose connection fitted with an interlock to prevent the hose pulling out inadvertently.

The included sanifilter and integrated float seal and anti-foam device ensure that the Greenline 2-90WD is immediately ready for tough cleaning jobs.

Generous 90 litre tough plastic tank

Powerful 2.0kW - 2.4kW 2x2-stage turbines

2470 mmH₂O Vacuum 420 m³/hr Flow

Integrated float seal and antifoam system

Integrated drain hose

38mm Hose/inlet with retainer catch

- **Powerful Wet & Dry Vacuum**
