

### TOWER TS60

Tower TS60 delivers excellent performance in a 230v or 110v highly manoeuvrable unit, targeted at heavier duty applications in Industry and Construction.

Optional BVC "Clearflow" filter provides a huge 1.65 sqm of filter area which helps to maintain peak performance at all times. More info [on our website](#).

Tower design gives a small footprint  
Fits through a standard single door  
110v and 230v options up to 3kW  
60 litre capacity - Multiple filter options  
Individually switched motors  
Easy bin removal and emptying  
Wet and Dry option - Filter cleaning device

- 5 year parts warranty
- "M" Class filtration with HEPA
- Huge range of tools and hoses

HEPA filters are tested according to the procedures described in BS 3928:1969. Our filter materials are compliant with the H13 and H14 HEPA categories described in BS EN 1822-2:2009 and also conform to the equivalent standards described in ISO 29463-1:2011
