## BVC

The BVC Ti80 is the flagship of the BVC range of portable Industrial Vacuum Cleaners.

Ti80 is highly configurable to suit users requirements. Motors range from 7.5kW to 15kW and machines can be configured to ATEX specification with or without HEPA filtration.

Filters are available in several different materials. The high performance BVC "Clearflow" filter is available on all machines in this range.

Hoses and tools are available in 51mm, 76mm and 102mm sizes. Ti80 is suitable for multiple operators and also fixed pipework installations. A skip interceptor is available as an option.
